Slow light – Pinhole photography with artist Vivienne Rickman-Poole

Tuesday 25 October 2016
11.00am – 4.00pm
£13.00 please call to book a place

Bydd yr artist Vivienne Rickman-Poole yn trawsnewid yr ystafell addysg yn ystafell dywyll a bydd yn dangos i chi sut i adeiladu camera gweithio o ddefnyddiau eildro, ac i gymryd a datblygu eich printiau eich hun.

Deall sail ffotograffiaeth; y ffordd y bydd golau, goddrych a chyfansoddiad yn effeithio ar eich gwaith a'r broses gemegol o brintio mewn ystafell dywyll.

Mewn byd lle'r ydyn ni wedi arfer â chymryd lluniau ffôn cyflym, mae'r camera twll pin yn gyferbyniad llwyr, yn cynhyrchu delweddau atgofus, arallfydol â'i ddadleniadau araf, hir.

Artist Vivienne Rickman-Poole will transform the education room into a darkroom and will show you how to construct a working camera from recycled materials, and to take and develop your own prints.

Understand the basis of photography; how light, subject and composition effects your work and the chemical process of darkroom printing.

In a world where we are used to taking fast phone snaps, the pinhole camera is a complete contrast, producing haunting, ethereal images with it's long slow exposures.
